

least one procedure comprises at least one portion of the software implementation and at least one portion of the software specification,--.

At line 11, delete [nondeterministic choices of the software specification] and add --nondeterministic choices of the at least one portion of the software specification--.

Claim 29 (Currently Amended),

At line 3, delete [a machine-readable medium] and add --a machine-readable storage medium--.

At line ²~~1~~, delete [; and] and add --;--.

At line 15, delete [.] add --the conformance-test enabled implementation comprising at least one instruction which, when executed by the computer system, causes a section of the software object to be executed prior to the conformance-test enabled implementation performing the mandatory call, the section of the software object to be executed corresponding to a step of the software specification comprising the mandatory call.--

--END--

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

As pointed out by the Applicants in the Remark that the cited prior art (Leiba et al. [6,260,065] and Willis et al. [6,321,376]) taken alone or in combination fail to teach, in combination with the other claimed limitations, *"applying software implementation source code and at least a portion of the software specification to produce a conformance-test enabled implementation comprising portions of the software implementation and portions of the software specification integrated into a same body of code wherein nondeterministic choices of the*
